PREFACE

FROM the very day of America's awakening to the need of conservation, the members of the School of Domestic Science have entered heartily and enthusiastically into each succeeding plan of the Administration for conserving the foods needed by our Allies. In order to do not only "our bit," but our utmost, radical changes have been made in the School menus, and much time has been given by teachers and by students of the Class of 1918 to experimental cookery with the various substitutes. In preparing the recipes, two definite objects have been kept in mind: the one to simplify for institutions the problem of providing satisfactory meals with less sugar, less fat, and less wheat; the other to enable them to do so at minimum expense.

The results of these months of work are embodied in "More Recipes for Fifty," and it is hoped that the book will be valuable in the years to come, as well as during these fateful years of the great World War.

BOSTON, June, 1918.

INTRODUCTION

A recipe, called to judgment, must answer three questions :

Is it practical?

Is it economical?

Is the result attractive?

These questions have to be answered in the affirmative when the recipes are planned for small groups. The answers must be still more emphatic when cooking is done for half a hundred.

The first book by Miss Smith has proved its rare value to the many dietitians and institution managers who have used it. The second carries the added merit of adjustment to our increased list of staples.

Before the war, we were in a rut in our kitchens. We used wheat, meat, sugar, and fats thoughtlessly and monotonously. Now, happily, cooking is lifted out of this dull routine. It has become a real adventure.

On any new trail, however, we need a guide who has thoroughly explored the danger points and can guard us against them.

Repeated experiments with what, in the first days of the world struggle, we called "substitutes" have produced the recipes in this book. They make a reliable and complete collection of palatable dishes which are not only good in theory, but entirely satisfactory in practice.

FRUITS

Dried Fruits

If properly cooked, dried fruits are a delicious and convenient form of fruit for winter use. Comparatively few people, however, cook dried fruits properly, and the result is a strong prejudice against them. At a time when the preservation of all food is so essential, and containers are so increasingly scarce, dried fruit comes to its own.

It should be used freely: for breakfast fruit, for luncheon and supper desserts, for ices and sherbets, and for other dinner desserts. Often a combination of two fruits makes a pleasant variety; as dried apples and raisins, or prunes and apricots.

Wash fruit thoroughly in cold water; drain. Add cold water to cover, and let soak from one to three days in a cold place; the drier and harder the fruit, the longer the time required for soaking. Bring slowly to the boiling point, and without stirring cook in double boiler or in fireless cooker two or more hours, or until fruit is perfectly tender, but unbroken. Sprinkle sugar or syrup over top of fruit, and cook twenty or thirty minutes longer; do not stir. A little salt added to the water before cooking is often an improvement; add lemon, spices, or other seasoning at same time if used. Corn syrup may be used in place of part or all of the sugar. Sweet, well-ripened fruits require little or no sugar. If the juice is watery and flavorless after cooking the fruit, turn it into a separate saucepan, and boil down to desired consistency.

Cranberry Bananas

50 bananas	3 cups cranberry juice
$\frac{1}{2}$ cup margarine	1 cup or more corn syrup

Left-over cranberry juice may be used, in which case no syrup will be needed. If bananas are to be used with meat, less sweetening will be required than when served as dessert. The margarine may be omitted. Peel bananas, place in shallow agate pans; dot over with bits of margarine, add half the syrup. Bake thirty minutes or until done, basting occasionally with remaining syrup.

Sliced Bananas with Fruit Juice

Allow one medium-sized banana to each person. Slice into sauce dishes; dip over fruit two or three tablespoons cranberry juice which has been sweetened with corn syrup. Cherry, red raspberry, or red currant juice may be used. Or serve half a banana to each person, and with it red currants, cut oranges, or strawberries, which have stood in sugar an hour or so; or stewed cranberries or peaches.

Bananas with Orange Sauce

50 bananas	$\frac{2}{3}$ cup cornstarch
3 cups whitecornsyrup	$\frac{1}{2}$ cup margarine
1 $\frac{1}{4}$ quarts boiling water	2 cups orange juice

Bake bananas in hot oven for twenty or thirty minutes, or until they swell almost to bursting; remove from skin. Or peel and put in casseroles to bake. Serve with hot or cold sauce: Mix cornstarch with a little cold water, and add to remainder when it boils. Boil five minutes; add

margarine, syrup, one teaspoon salt, and boil one minute. Add juice and grated rind of orange. Pour over bananas before serving.

Bananas with Lemon Sauce

3 cups corn syrup	$\frac{1}{2}$ cup cornstarch
$1\frac{1}{2}$ teaspoons salt	$1\frac{1}{4}$ quarts boiling water
$\frac{3}{4}$ cup lemon juice	4 dozen bananas

Mix salt and cornstarch with a cup cold water. Bring remaining water to boil, add to cornstarch, stirring constantly; add corn syrup and boil five minutes, then add lemon juice and grated rind. Peel bananas; cut in halves lengthwise, then each half crosswise. Put in baking dishes, add sauce, and bake thirty minutes in moderate oven.

Bananas with Sultana Sauce

25 to 50 bananas	9 tablespoons cornstarch
1 quart Sultana raisins	1 tablespoon salt
$1\frac{1}{2}$ quarts water	$\frac{3}{4}$ cup lemon juice or strong vinegar
$\frac{3}{4}$ quart corn syrup	

Peel bananas, removing all coarse threads; place side by side in baking dishes. Wash raisins, add water, and simmer half an hour or longer, replenishing water as it evaporates; there should be one and one-half quarts when done. Mix cornstarch, salt, and a little cold water which has been saved out. Add boiling raisin water and syrup, boil two minutes; add vinegar or lemon juice, bring to boil, and pour over bananas. Bake in hot oven thirty minutes, or until bananas are done. Serve as dessert. The bananas may be baked separately, and sauce poured over them when served. In that case, boil sauce five minutes.

The number of bananas depends upon size ; there should be the equivalent of a small banana to each person.

Stuffed Prunes

2 pounds prunes	1 cup chopped walnuts
3 cups chopped raisins	$\frac{1}{2}$ cup dark corn syrup

Soak prunes over night, or longer if very hard. Drain, steam thirty minutes, and remove stones. Mix raisins, nuts, and syrup ; cook five or ten minutes in double boiler ; fill prunes with mixture, and chill.

Apricot and Apple Jam

Soak two pounds dried apricots for one or two days in cold water to barely cover. Add four pounds peeled, cored, and sliced apple. Cover closely, and cook in oven until soft. Add about three-fourths its bulk of dark corn syrup and sugar mixed, and half a teaspoon salt. Cook until thick and uniform in color, adding more syrup or brown sugar if not sweet enough. One seeded and chopped lemon may be added if desired.

Prunes and Apricots

2 pounds dried apricots	$3\frac{1}{2}$ cups corn syrup or
$1\frac{1}{2}$ pounds pitted prunes	sugar

Wash fruit separately and thoroughly ; add cold water to cover ; soak from one to two days. Put in double boiler or fireless kettle in alternate layers, add water in which they were soaked, and cook several hours, or until quite soft but unbroken. Add syrup without stirring ; cook fifteen minutes longer in fireless or on back of range. Unpitted prunes may be used, requiring about two pounds.

Apples, Italian Style

Choose large, juicy, well-flavored apples, attractive in appearance. Wash and polish well, and serve in fruit dish. Pass with them Neufchatel, cottage, Roquefort, Young America, or any cheese that is not hard and dry. Cut apples in slices, and spread with cheese. Serve for luncheon dessert.

Apples Baked with Syrup

50 large, tart apples	1½ quarts thick maple or
1½ quarts water	brown sugar syrup

Wash and core apples, and if skins are tough, pare the upper half. If possible, bake apples in baking pans that can be covered. Add one teaspoon salt and boiling water to syrup, pour over apples, and bake in rather hot oven an hour or more. They should be perfectly soft, even if they cook to pieces. If some apples are done first, remove from pan, and continue cooking the others. If juice seems watery, boil a few minutes after removing apples. Pour juice over apples, and chill. Serve for dessert. If apples are used for breakfast, one quart syrup is sufficient.

Baked Apples De Luxe

18 pounds tart apples	1 teaspoon salt
2 quarts brown sugar	1 bunch mint leaves
1½ quarts water	Peel of one or two lemons

Do not use apples that cook to pieces easily. Corn syrup may be used in place of sugar by leaving out one pint of water. Cut yellow peel of lemons in small pieces. Wash mint, and allow about two leaves to each apple. Pare, core, and halve apples. Put into large kettle or bean pots. Bring sugar and water to boil; add mint, lemon, and salt. Pour

over apples, bring to boil, and cook in fireless cooker or Aladdin oven five or six hours. The apples should be unbroken and amber colored. Serve for dessert.

Pickled Apples

1½ pecks winter apples	1 pint light brown sugar
1½ quarts white corn syrup	1 tablespoon whole cloves
¾ quart strong vinegar	1 tablespoon cinnamon buds

Pare, quarter, and core apples; add remaining ingredients, bring to boil five minutes, and cook two or three hours in fireless cooker or Aladdin oven. The apples should be light in color, and soft but not broken. Serve with roast pork, veal, or game.

Apple Amber

12 pounds tart apples	1 pint boiling water
1½ quarts corn or maple syrup	1 teaspoon salt
	½ cup margarine (optional)

Pare apples and slice thin; put into baking dishes. Mix syrup, salt, and water; bring to boil, pour over apples, and dot with bits of margarine. Cover, and bake in moderate oven until apples are tender and amber colored. They should be only slightly colored and unbroken. Leave in dishes until cold. Serve for dessert with soft custard sauce, with cream, or plain.

Cranberry Sauce

4 quarts cranberries	2 quarts corn syrup
1 cup boiling water	½ teaspoon salt

Wash and pick over berries. Mix remaining ingredients, pour over berries; put on back of range or on asbes-

tos mat until some juice is extracted, then cook more rapidly until skins are tender and juice jellies. Serve cold.

Cranberry Relish

4 quarts cranberries	3 lemons
1½ quarts corn syrup	2 quarts celery cut in
½ teaspoon salt	half-inch pieces

Wash and pick over berries; drain well. Put berries, syrup, salt, and lemon juice in kettle; heat slowly, then boil until juice jellies. Cool partly, stir in dry celery, and put in cold place to mold. If it does not harden, serve in sauce dishes.

Summer Fruit Cups

Fruit cups may be served as an appetizer or as dessert. For the former, two tablespoons of the mixed fruit and juice is sufficient for each person; but for the latter, more generous servings should be allowed. Under existing conditions, it will be found possible many times to prepare fruit cups with less sugar or syrup than heretofore, sometimes even without any. Sugar should be made into a syrup, using half as much water as sugar, and boiling it two or three minutes before adding to fruit. White corn syrup or honey may be used in place of sugar syrup. Cook currants, sour cherries, or other very acid fruit, in syrup four or five minutes, but simply pour hot syrup over raspberries, peaches, and other mild fruits. Let stand in syrup until ice cold. There are many delicious combinations available in native fruits from June to October: large strawberries cut in halves, sprinkled with powdered sugar, and chilled; raspberries and currants; diced watermelon and canned or fresh pineapple, with or without

lemon juice; blackberries flavored with lemon juice and nutmeg to taste; stoned cherries, with diced banana or pear or pineapple; cut peaches, stoned cherries, and a sprinkling of minced angelica. Sometimes a combination of three or four left-over fruits may be used.

Winter Fruit Cups

Winter fruit cups do not require syrup. Serve without sugar, or with powdered or granulated sugar sprinkled over prepared fruit before it is chilled. In order to save sugar, however, white corn syrup may be used instead. If sugar is used, do not allow more than two tablespoons to a large grapefruit. Peel grapefruit, separate sections from membrane, and cut in thirds; peel and separate oranges into sections, removing membrane; peel bananas and cut in small dice. Winter fruits may be combined in various ways: grapefruit, Malaga grapes seeded and halved, and Maraschino cherries shredded or halved; grapefruit, canned pears, and preserved ginger chopped finely; oranges, lemon juice, and minced fresh mint; oranges, grapefruit, and bananas; oranges and apples; stewed figs cut in small pieces, lemon juice, peaches, and marshmallows.

SUBSTITUTES

THE problem of substitutes in cookery reduces itself to three factors: fat, sugar, and flour.

FAT

The first one is easily disposed of: use butter substitutes, oils, hardened oil, and clarified drippings in place of butter and lard in cooking. In substituting fats, it should be remembered that seven-eighths of a cup of oil or lard is the equivalent of one cup of butter; fourteen and one-half tablespoons of hardened oil is equivalent to sixteen tablespoons of butter. Also it is well to bear in mind that many of our cakes and prepared dishes have been richer in fat than at all necessary, so that it is often possible to cut down more or less the amount called for in pre-war recipes.

SUGAR

There are two ways of saving sugar: by making things less sweet, and by using molasses, syrups, or honey in place of all or a part of the required sugar. In nearly all of the dessert and cake recipes that we have been in the habit of using, the amount of sweetening may be reduced with satisfactory results. In substituting molasses and syrups for sugar, leave out as much liquid as there is molasses or syrup added. In using honey, deduct one-fifth cup of liquid for each cup of honey substituted. Dark cakes may be made without any sugar, or with a small amount of brown sugar in addition to the molasses

or syrup used. Add one teaspoon of soda for each cup of molasses substituted for sugar.

FLOUR

At first, the substitution of unfamiliar flours for wheat flour presents serious difficulties, but the acquisition of a few fundamental principles and a little practical experience soon enables one to use substitute flours very satisfactorily.

Corn flour is a new acquaintance to most of us, but corn meal is an old friend, although one whose possibilities we have never realized. In some sections we have been confined to white meal, in others to yellow meal. Now we have increasingly available both white and yellow flour, as well as white and yellow meal. In substituting corn products for wheat flour, use from three-fourths to seven-eighths as much. Corn flour and corn meal give the best results when combined with one-third or one-half wheat flour, as they contain so little gluten; but very satisfactory quick breads and sponge cake may be made wholly of corn.

Barley flour, in particular, has been the bane of the housewife. The first barley flour put on the market was all barley, but now, under government regulation, three or four per cent wheat is added; and the result is a flour which can be used alone or in large part in almost everything but yeast bread. The product is, of course, much darker, and has the characteristic barley taste unless counteracted by other flavors, but in time we shall become accustomed to that and think nothing of it.

For yeast bread, from twenty-five to fifty per cent wheat flour is needed in order to give a satisfactory loaf. In many cases, a mixture of two or more substitutes gives

better results than one alone. Brown gravies and sauces, muffins, biscuits, noodles, dark cakes, sponge cakes, and many puddings may be made wholly of barley flour.

A good deal is being said about the acid in barley, and the necessity for using limewater or some other agent to counteract it. When it is remembered that entire wheat flour and corn products contain almost as much acid as barley, the necessity for neutralizing it in the one case, when it is not done in the other, seems still an open question. Yeast bread made with barley flour may have a slightly acid, but not unpleasant, flavor which increases as the bread grows older; but baking powder and soda mixtures have no noticeable acid taste.

With such substitutes as cornstarch, potato flour, and rice flour, it is necessary in many cases to use from twenty-five to fifty per cent wheat, barley, or rye flour, to furnish gluten enough to make them stand up. Sponge and angel cakes may be made wholly of starch flours; "butter" cakes, muffins, and similar doughs requiring a large number of eggs, may be made with at least half of such flours.

In making over old recipes, or for reversing the process when the war is over, the following table gives approximately the amount of substitute flour to use in place of pastry flour, as that is the kind of wheat flour generally used in baking powder mixtures. In substituting for bread flour, use two tablespoons more to a cup than when substituting for pastry flour. For instance, use one cup instead of seven-eighths cup of barley.

TABLE OF SUBSTITUTIONS
(Approximate)

In place of one cup of pastry or winter wheat flour use :

Barley flour	$\frac{7}{8}$ cup
Corn flour or Fine corn meal } Granulated corn meal	$\frac{3}{4}$ to $\frac{7}{8}$ cup
Buckwheat	$\frac{7}{8}$ cup
Ground rolled oats	$\frac{7}{8}$ cup
Potato flour	$\frac{1}{2}$ cup
Rice flour	$\frac{3}{4}$ to $\frac{7}{8}$ cup
Cornstarch	$\frac{1}{2}$ cup

For the present, at least, it is more patriotic to use largely the so-called "quick breads" in place of yeast bread. Since they do not keep as well, it is necessary to bake less and oftener. Steamed breads have an advantage over baked ones in the longer cooking, which makes them more digestible. Left-over muffins, corn bread, and other quick breads may be toasted.

Wheat, barley, rye, and corn flour should be sifted before measuring; granulated corn meal and the starches, such as cornstarch and potato flour, may be used without.

The number of eggs used may be increased or decreased to suit prevailing conditions. If fewer eggs are used, add one teaspoon baking powder and two tablespoons liquid for each one omitted. If the number is increased, reverse the process, omitting the same amount of baking powder and liquid.

Milk for cooking is always skim milk, unless otherwise specified. Water may be substituted for milk if necessary; and sour milk for buttermilk, or the reverse.

BREADS AND ROLLS

TWENTY TO FIFTY PER CENT WHEAT FLOUR

White War Bread

$\frac{3}{4}$ quart water	$\frac{1}{2}$ cup corn syrup
1 quart hot milk	$\frac{1}{3}$ cup fat (optional)
1 cake yeast in	$\frac{3}{4}$ quart white corn meal
$\frac{1}{2}$ cup lukewarm water	$\frac{3}{4}$ quart barley flour
2 $\frac{1}{2}$ tablespoons salt	3 $\frac{1}{2}$ quarts wheat flour

Scald milk; add syrup, fat, salt, and water. Add dissolved yeast, corn meal, and barley flour. Beat hard, then add wheat flour until stiff enough to knead. Knead thoroughly, using more flour if necessary. Let rise over night. Do not use any flour in shaping loaves. Put in oiled pans; let rise again until double in bulk. Bake in moderate oven one hour or more for large loaves. The crust is more tender if brushed with melted margarine or other fat, but that may be omitted if necessary. Makes six large loaves.

Potato Bread

1 pint hot milk	$\frac{1}{4}$ cup corn syrup
1 quart mashed potato	$\frac{1}{2}$ yeast cake
$\frac{1}{4}$ cup fat (optional)	1 pint white corn meal
2 tablespoons salt	1 $\frac{1}{2}$ quarts wheat flour

Boil potatoes, put through ricer, and pack well in cup. Add milk, salt, syrup, and shortening. If left-over mashed potato is used, leave out one-half cup milk. When lukewarm add yeast, which has been dissolved in one-

fourth cup tepid water. Stir in corn meal, add flour, and knead well. The dough will be *very* stiff, but will soften in rising, on account of the moisture in potato. Let rise over night. In morning, shape and bake as White War Bread. Makes three loaves.

Rye Bread I

1 quart hot milk	$\frac{1}{4}$ cup shortening
$\frac{3}{4}$ quart water	1 yeast cake
2 tablespoons salt	1 quart wheat flour
1 cup dark corn syrup	Rye flour to knead

Dissolve yeast in one-fourth cup tepid water. Add water, salt, syrup, and shortening to hot milk; cool. Add yeast and wheat flour, beating hard. Add rye flour to knead, let rise over night; shape, let double in bulk, and bake in very moderate oven about an hour and a half for large loaves, and one hour for small ones. Makes six large loaves.

Rye Bread II

Women's City Club of Boston

1 $\frac{3}{4}$ quarts hot water	1 $\frac{1}{2}$ tablespoons fat
$\frac{3}{4}$ cup molasses	2 quarts rye meal
1 yeast cake	1 $\frac{1}{4}$ quarts rye flour
2 tablespoons salt	1 $\frac{3}{4}$ quarts bread flour

Dissolve yeast in one-fourth cup lukewarm water. Add molasses, salt, and fat to hot water; cool. Add dissolved yeast, and rye meal and rye flour gradually, beating well. Add bread flour to knead as soft as possible, using more flour if necessary. Let rise over night; shape, let rise till double in bulk, and bake in very moderate oven, about an

hour for small loaves, and an hour and a half for large ones. Makes six large loaves.

Rye and Potato Bread

1 quart hot milk or water	$\frac{1}{2}$ cup corn syrup
2 quarts mashed potato	2 yeast cakes in
$\frac{1}{2}$ cup fat	$\frac{1}{2}$ cup water
3 tablespoons salt	4 to 5 quarts rye flour

Boil potatoes, and put through ricer before measuring. Left-over mashed potato may be used by omitting one cup liquid. Add hot milk to potato; cool. Add salt, syrup, melted fat or oil, dissolved yeast, and rye flour to knead into very stiff dough. This is very necessary, because the dough softens in rising, on account of moisture in potato. Makes six large loaves.

Raisin Rye Bread

Before shaping into loaves, add three or four cups washed and dried raisins to Rye Bread I or II. Bake in small pans. Serve with coffee and cheese for luncheon dessert.

Oatmeal War Bread

2 quarts boiling water	2 tablespoons salt
$\frac{1}{4}$ cup fat	1 quart rolled oats
1 cup molasses	1 pint corn meal
1 yeast cake in	$1\frac{1}{2}$ quarts barley flour
$\frac{1}{4}$ cup tepid water	$1\frac{1}{4}$ quarts bread flour

Mix oats, meal, salt, and fat; add boiling water; cool. Add yeast, molasses, barley flour, and bread flour to knead, using more if necessary. Finish as Rye Bread. Rye flour may be used in place of barley. Makes six loaves.

Barley Bread

1 quart hot milk	1 yeast cake in
1 quart cold water	$\frac{1}{2}$ cup tepid water
$\frac{1}{4}$ cup brown sugar	3 quarts barley flour
2 tablespoons fat	3 quarts bread flour
2 tablespoons salt	or enough to knead

Add water to scalded milk; add salt, sugar, melted fat, dissolved yeast, and barley flour. Add bread flour to knead as soft as can be handled. Let rise over night, or start bread in morning, using double the amount of yeast. Shape loaves when dough is light. Use no flour in shaping. If sticky or soft, brush board with oil, or cut bread down well with knife and turn into pan without shaping. Brush with oil or melted fat. Let rise, and bake in very moderate oven about a fourth longer than for wheat bread. Makes six large loaves.

Bran and Barley Bread

1 quart hot milk	1 cup fat (optional)
1 quart cold water	1 cup molasses
2 tablespoons salt	$\frac{3}{4}$ quart bran
1 yeast cake in	$1\frac{1}{2}$ quarts bread flour
$\frac{1}{4}$ cup tepid water	Barley flour to knead

Scald milk; add water, salt, molasses, melted fat, dissolved yeast, and bran. Beat thoroughly, add bread flour, and barley flour to knead. Keep as soft as can be handled. Let rise over night; shape in loaves, brush with oil or melted fat, let rise until double in bulk. Bake an hour or more, according to size of loaves, in moderate oven. Makes six large loaves.

Yami-Dami Bread

1 quart boiling water	2 tablespoons salt
1 cup rye meal	1 yeast cake in
2 cups corn meal	$\frac{1}{2}$ cup cold water
$\frac{1}{4}$ cup shortening	1 $\frac{1}{2}$ quarts bread flour
1 cup molasses	1 quart rye or barley flour

Mix corn and rye meal, add boiling water, stir until smooth. Add salt, fat, and molasses; cool. Add dissolved yeast and bread flour. Beat well, and add rye or barley flour to knead as soft as can be handled. Let rise over night; shape, let rise until double in bulk, and bake an hour or more in moderate oven. Makes three large loaves.

Coffee Bread

2 yeast cakes	2 cups corn syrup
1 pint scalded milk	$\frac{1}{2}$ teaspoon mace
2 quarts barley flour	3 cups mixed fruit
3 cups white corn flour	1 teaspoon salt
1 $\frac{1}{2}$ cups shortening	3 eggs, well beaten

Dissolve yeast in one-fourth cup cool water. Add shortening, salt, and syrup to hot milk; cool. Add eggs, and flour sifted with mace or cinnamon. Chop citron; wash and dry raisins; mix fruit with a little of the flour, then combine with first mixture. Beat well, let rise over night; pour into oiled shallow pans to depth of one inch. Brush with milk, and sprinkle generously with sugar mixed with mace or cinnamon. Let rise until about double in height. Bake in rather hot oven forty-five minutes, or until done.

Date Bread

2 quarts warm white corn meal mush	1 yeast cake dissolved in $\frac{1}{4}$ cup lukewarm water
1 pint brown sugar	4 cups cut walnut meats
4 teaspoons salt	5 cups stoned dates
$\frac{1}{4}$ cup shortening	1 $\frac{1}{2}$ quarts barley flour

Mix first four ingredients; add dissolved yeast and barley flour. Add wheat flour to knead thoroughly. In morning, or after first rising, knead nuts and dates into dough; shape in loaves, let rise until double in bulk. Bake from fifty to sixty minutes, or until done. It should be thoroughly cold before cutting. Makes three loaves.

Crumb Bread

2 quarts hot water	1 yeast cake
1 cup molasses	1 $\frac{1}{2}$ quarts crumbs
1 $\frac{1}{2}$ tablespoons salt	2 quarts rye flour
$\frac{1}{4}$ cup fat (optional)	2 quarts wheat flour

Use any kind of left-over muffins, corn bread, or dark bread. Dry thoroughly, and put through meat chopper before measuring. Add hot water, fat, molasses, and salt; cool. Add yeast, which has been dissolved in one-fourth cup lukewarm water, and wheat flour. Add rye flour to knead, using more if necessary. Finish as White War Bread. Barley flour could be used in place of rye. Makes six loaves.

Cereal Bread

2 quarts left-over cereal	1 yeast cake in
1 cup molasses	$\frac{1}{4}$ cup tepid water
2 tablespoons fat	1 $\frac{1}{2}$ quarts barley flour
1 $\frac{1}{2}$ tablespoons salt	1 $\frac{1}{2}$ quarts wheat flour

Work molasses, salt, dissolved yeast, and melted fat into cereal, using wooden or heavy iron spoon. Add barley flour, and wheat flour to knead well. If cereal is quite moist, more flour will be required, but do not make stiffer than necessary in order to knead well. Finish as White War Bread. Makes four small loaves.

Potato Rolls

$\frac{1}{2}$ cup shortening	3 cups hot milk
$\frac{3}{4}$ to 1 cup sugar	1 yeast cake in
$1\frac{1}{2}$ tablespoons salt	2 tablespoons tepid water
$1\frac{1}{2}$ quarts mashed potato	3 quarts bread flour

Half barley flour may be used if desired. The sugar may be omitted. Put boiled potatoes through ricer; pack lightly to measure. Add hot milk, salt, shortening, sugar; cool. Add yeast, and flour gradually; it will be very stiff dough. Knead well, let rise over night. In morning, shape in balls about one and one-half inches in diameter. Place in oiled pans, barely touching each other. Do not use flour, but keep fingers well oiled. It is not necessary to take dough on board at all. Let double in bulk, bake in hot oven. Makes about six dozen medium-sized rolls.

Barley Rolls

1 pint scalded milk	$\frac{1}{2}$ yeast cake dissolved in
1 pint water	2 tablespoons tepid water
$\frac{2}{3}$ cup shortening	$1\frac{1}{2}$ quarts wheat flour
2 tablespoons salt	$1\frac{1}{2}$ quarts barley flour, or
$\frac{1}{4}$ cup sugar	enough to knead

A pint of white corn meal or corn flour may be substituted for one pint of wheat flour. Add water, salt, sugar,

and shortening to hot milk. When lukewarm, add yeast and wheat flour; beat well; add barley flour to knead as soft as dough can be handled. Let rise over night. In morning, brush board with oil, and without disturbing dough, turn it upside down on board. Roll to about an inch in thickness, cut in small rounds, and place barely touching each other in pans. When light, bake in hot oven twenty to thirty minutes. Or roll to one-half inch in thickness, and shape like Parker House Rolls. Makes about six dozen.

Rye Rolls

1 pint scalded milk	2 tablespoons salt
1 pint water	$\frac{1}{2}$ yeast cake in
$\frac{3}{4}$ cup shortening	$\frac{1}{2}$ cup tepid water
4 tablespoons sugar or	1 $\frac{1}{2}$ quarts bread flour
dark corn syrup	2 quarts rye flour

One pint barley flour or corn meal may be substituted for a pint of bread flour. Make as Barley Rolls. In morning, shape in smooth balls about one and one-half inches in diameter. Place barely touching each other in well-oiled pans. Let double in bulk, and bake in hot oven.

Indian Clover Leaf Rolls

$\frac{3}{4}$ quart corn flour	$\frac{2}{3}$ cup shortening
or bolted corn meal	2 tablespoons salt
1 quart hot milk	$\frac{1}{2}$ cup corn syrup
1 yeast cake dissolved in	1 pint rice or barley flour
$\frac{1}{4}$ cup tepid water	2 quarts wheat flour

The proportion of wheat flour may be decreased with fairly good results by using more corn or barley flour. Pour hot milk over corn meal; let stand until lukewarm.

Add remaining ingredients, kneading dough until it is soft, smooth, and elastic. Let rise over night. In morning, cut down with knife and let rise again, or shape at once. Grease muffin pans, and into each put three balls about an inch in diameter. Keep fingers well oiled in shaping rolls, but use no flour. Let fully double in bulk. Bake in hot oven thirty minutes, or until done. Makes five or six dozen rolls.

Raised Rye Meal Biscuit

1 quart scalded milk	2 quarts rye meal
or milk and water	1 pint corn or rye flour
2 tablespoons salt	Wheat flour to knead
1 cup molasses	1 yeast cake dissolved in
1 cup shortening	$\frac{1}{4}$ cup tepid water

Heat milk; add molasses, salt, and shortening; cool. If corn meal, instead of corn flour, is used, turn hot milk over it before adding other ingredients. Add yeast, rye meal, and wheat flour to make a dough as soft as can be kneaded. Knead well; let rise over night. In morning, shape in balls about one and one-half inches in diameter. Keep fingers well oiled while shaping. Place in pans to barely touch each other. Let double in bulk. Bake in hot oven thirty minutes, or until done.

Raised Corn Meal Muffins

$\frac{3}{4}$ quart hot milk	1 yeast cake in

Cook slowly on well-oiled griddle.

Roll to three-fourths inch thickness, cut in small rounds; place in greased pans to barely touch each other. Bake in hot oven fifteen minutes, or until done. It is well

Shape in loaves, place in meat pans, and cook in hot oven till slightly brown. Then reduce heat and cook slowly, or remove to Aladdin oven; about an hour altogether will be required. Baste occasionally. Remove to platters.

Turn one cup drippings from pan into saucepan, add flour, and strained tomato, stirring until thickened and well cooked. Season to taste. Add one quart or more cooked macaroni, spaghetti, or barley noodles, cut in half-inch pieces. Serve around loaf, or pass with meat.

5 pounds fresh pork	2 quarts strained tomato
1 quart cooked rice	1 quart dried crumbs or
1 cup minced onion	3 quarts mashed potato
1 teaspoon pepper	3 tablespoons salt

Put meat through chopper, or have it ground at market. If mashed potato is used, one quart tomato will probably be sufficient. It should be just moist enough to pack well. Cook onions as Boiled Onions. Potatoes should be about size of onions, or cut large ones in quarters or halves. Steam forty minutes, or until tender.

Half an hour before serving, remove veal and vegetables to casseroles. Thicken stock with flour which has been stirred into drippings in which veal was browned; season to taste. Add potatoes, onions, and hot sauce to meat and vegetables, and serve at once, with chopped parsley sprinkled over top.

Cook slowly forty-five minutes. To prepare samp, soak one quart in cold water twenty-four hours, put into double boiler or fireless cooker, and cook five or six hours; drain, and add to beef mixture. The water from samp may be used in sauce. Macaroni or spaghetti may be used in place of samp.

Chili Con Carne

12 pounds round steak	1 teaspoon cloves
1 cup drippings	6 to 12 red peppers

Remove partitions and seeds from red peppers, parboil five minutes; drain and chop. Mix half a cup barley flour with salt, and water to make smooth. Add flour, onions, peppers, cooked beans, cloves, and chili powder to beef. Real Chili Con Carne calls for a dozen seeded and par-boiled red chilies, but Northern taste prefers less highly seasoned dishes. Cook thirty minutes longer on back of range, or in Aladdin oven, to prevent burning. Add more salt if needed.

Spiced Veal Hearts

15 large veal hearts	1½ cups water
1 quart strong vinegar	2 tablespoons salt
4 medium onions sliced	2 or 3 bay leaves

Put hearts and fat from pan into tightly covered kettle; add sliced onions, peppers which have been seeded and sliced, seasonings, and stock. Cook slowly three hours in Aladdin or range oven.

Pour off stock, and thicken with flour which has been made smooth with cold water. Slice hearts; pour over them the hot sauce, and serve at once.

$\frac{1}{2}$ cup chopped parsley	1 quart celery
3 quarts boiling water	1 teaspoon pepper
4 pounds sliced carrot	4 tablespoons salt
4 pounds sliced turnip	2 cups barley flour

Cut pork in inch pieces or cubes ; sauté in hot frying pan, pouring off fat as it accumulates. Put pork in kettle, add water, cook two hours, and skim off fat. Add carrots and turnips, cook an hour ; add remaining vegetables and seasonings, cook thirty minutes or more. Remove pork and vegetables to casseroles ; thicken liquor with flour which has been mixed till smooth with a little cooled liquor. If clear fat comes to top of sauce, it should be removed. Sprinkle with parsley, and add to pork mixture.

stirring constantly until smooth. Add carrots, onions, garlic cloves, bay leaves, salt, and hot sauce to veal. Cook slowly in Aladdin or other oven three hours, or until meat is very tender. Remove bay leaves and garlic, turn into casseroles, and sprinkle with parsley. Serve boiled rice or samp with it.

Oxford Sausage

4 pounds lean, fresh pork	2 $\frac{2}{3}$ tablespoons salt
4 pounds veal or beef	2 teaspoons pepper
4 pounds beef suet	2 or more teaspoons
2 quarts soft, fine crumbs	poultry seasoning

Use any dark bread that contains little or no molasses. The crumbs should not be hard and dry. Put meat and suet through fine meat chopper, add other ingredients, and mix thoroughly. Pack well, and set in cool place if not used at once. Shape in small, flat cakes, as thick on edge as in center. Cook in hot frying pan or broiler until well browned on both sides.

Pork Pie

12 to 16 pounds lean, fresh pork	3 tablespoons salt
1 $\frac{1}{2}$ cups minced parsley	2 teaspoons pepper

parsley, and remove meat to baking dishes. Skim off any clear fat on top of stock, and thicken stock with one and one-half cups barley flour mixed until smooth with a little cooled stock. Add to meat to come nearly to top; reserve remainder to pass with pie. Cover meat with any Meat Pie Crust, and bake thirty minutes or more. Be sure that crust is done. If raw meat is cooked in casseroles instead of in a large receptacle, sliced raw potatoes may be added alternately with meat. Or partly cooked potatoes may be added when the crust is put on. Veal or mutton may be used in place of pork.

Cuban Pie

Put into baking dishes a layer of cooked rice or hominy; sprinkle over it bits of cooked bacon, cover with layer of coarsely cut chicken, or chicken and veal; add chicken gravy to moisten well, then a layer of fresh or canned sweet corn seasoned with pepper and salt. Finish with a regular pie crust, or with one of the following Meat Pie Crusts. Serve extra chicken gravy or sauce with pie.

Meat Pie Crust I

1 $\frac{1}{3}$ quarts pastry flour	4 teaspoons salt
$\frac{2}{3}$ quart corn flour or white corn meal	5 tbsps. baking powder
$\frac{3}{4}$ to 1 cup shortening	3 $\frac{1}{3}$ cups water, or enough to make soft dough

In all biscuit and similar doughs, the amount of liquid required varies slightly, so that at the last it should be added gradually, in order that the dough shall not be too soft to handle. In all cases, however, it should be as soft as possible. Sift dry ingredients, rub or cut in shortening,

add milk or water, roll to about one-half inch thickness; cut in small rounds, or in sheet to fit top of baking dish. In latter case, cut an inch hole in center for escape of steam. Bake thirty minutes or more in hot oven. Four and three-fourths cups barley flour may be used in place of pastry flour.

Meat Pie Crust II

2 qts. barley or oat flour	1 cup shortening
4 teaspoons salt	$3\frac{1}{3}$ cups milk, or milk and
$\frac{1}{3}$ cup baking powder	water mixed

Extra wetting will probably be needed if oat flour is used. Mix, cut, and bake as Meat Pie Crust I.

Meat Pie Crust III

2 quarts barley or pastry flour	$1\frac{1}{4}$ cups shortening
1 quart rice or	$\frac{1}{3}$ cup baking powder
$\frac{3}{4}$ quart potato flour	3 to $3\frac{1}{2}$ cups milk
	5 teaspoons salt

Water may be used in place of milk. Cornstarch may be used instead of potato or rice flour. Mix as soft as possible. Make and bake as Meat Pie Crust I.

Meat Pie Crust IV

6 pounds peeled, raw potatoes	6 tablespoons fat
3 cups pastry flour	1 tablespoon salt
	1 tbspn. baking powder

Boil potatoes, put through ricer; add salt, fat, and flour which has been sifted with baking powder. Knead in the flour; it will be very stiff. Roll to one inch or less in thick-

ness, cut to fit top of pie, with a hole in center, and bake thirty minutes, or until done, in hot oven. The crust will be moist but tender.

Persian Pilaf

8 pounds lamb or mutton	2 tablespoons salt or more
5 pounds onions sliced	1 teaspoon pepper
$\frac{3}{4}$ quart rice	$\frac{1}{2}$ teaspoon cloves
1 $\frac{1}{2}$ quarts water	1 teaspoon cinnamon
3 quarts strained tomato	$\frac{1}{2}$ cup chopped parsley

Cut meat in inch pieces, sauté in drippings in hot frying pan until well browned, and remove to kettle. Cook onions in same pan slowly until slightly browned, and add to lamb. Wash rice, add boiling water; boil one or two minutes, and add to meat with tomato and seasonings. Cook slowly two or three hours—three hours if mutton. If too dry, add more water. The liquid should be nearly or quite absorbed by rice. Sprinkle with parsley. If preferred, cloves and cinnamon may be omitted, and two cups chopped carrot and three tablespoons horse radish used instead.

Scalloped Lamb

6 quarts cooked lamb, or lamb and other meat	1 cup barley flour
3 quarts strained tomato	1 $\frac{1}{2}$ tablespoons salt
1 $\frac{1}{2}$ quarts brown gravy	1 teaspoon pepper
	$\frac{1}{2}$ cup chopped parsley

Chop meat before measuring. Mix flour with seasonings, stir until smooth with a little cold tomato juice; add boiling tomato, brown gravy, lamb, and parsley. Pour into baking dishes, sprinkle with soft, dark bread crumbs; bake until crumbs are crisp. Crumbs may be omitted.

Scotch Hot-Pot

16 pounds shoulder or neck of mutton	1 bunch celery
5 pounds carrots	$\frac{1}{2}$ cup chopped parsley
5 pounds white turnips	2 teaspoons pepper
3 pounds onions	3 tablespoons salt
	1 pint pearl barley

Cut mutton in inch pieces, brown in oiled, hot frying pan, remove to closely covered kettle. Put three quarts boiling water in frying pan, add washed barley, boil five minutes; add to mutton. Add vegetables and seasonings, and cook slowly three hours or more. Add more water if needed; the barley should thicken it to the consistency of brown gravy. Add more salt, also, if needed.

Lamb, Oriental Style

8 pounds shoulder of lamb or mutton	4 pounds fresh string beans
1 cup chopped onion	1 teaspoon pepper
2 quarts broth or water	3 tablespoons salt
1 quart strained tomato	$1\frac{1}{2}$ cups barley flour

Have meat boned and cut in two-inch pieces. Brown in hot, oiled frying pan, put in casseroles or tightly covered kettle. Wash beans, cut in inch pieces, add to meat. Add onion, tomato, broth, and salt; bring to boil, and cook two hours, or until lamb and beans are tender. If mutton is used, it is well to cook it an hour before adding beans. If canned beans are used, drain four quarts, and add after thickening. Mix flour until smooth with cold broth, add to stew; boil five minutes, stirring constantly. If too thick, add more broth. Serve with barley or corn biscuit, or with barley dumplings.

Chicken à la King

6 quarts or more cooked fowl cut in pieces	1 pint green peppers $\frac{1}{2}$ cup chopped parsley
4 quarts rich broth	1 quart celery
1 cup potato flour	2 teaspoons paprika
1 cup fat	Salt to taste

Cook fowl, without cutting, in salted water, until quite tender; remove from liquor, and let get cold. Remove meat carefully from bones, and cut in two-inch pieces; they need not be regular in shape, but should be neatly cut. Put bones back in stock and simmer one or two hours; strain, and remove fat. Cream together fat and flour, add hot broth and seasoning, stirring all the time; boil five minutes. Add meat without stirring. Cut celery in inch pieces, boil thirty minutes; drain, and add to sauce. Wash peppers, remove seeds, parboil fifteen minutes; drain, cut in small pieces, and add. Keep mixture over hot water until well heated through. Just before serving, stir carefully to mix ingredients. The pieces of fowl and vegetables should be unbroken. Serve in border of boiled rice. Sprinkle with parsley.

Scalloped Chicken

4 quarts chopped chicken	4 quarts White Sauce II
4 quarts canned corn	or chicken gravy
1 teaspoon pepper	1 tablespoon salt

Put chicken and corn in baking dishes in alternate layers, sprinkle with salt and pepper. Add sauce, lifting chicken with fork to let sauce moisten all parts. Sprinkle with soft buttered crumbs, bake about forty minutes.

Maryland Chicken

Dress, singe, and clean roasting chickens; there should be about twenty-five pounds after they are dressed. Cut in pieces for serving. Roll in salted barley flour, sauté in pork fat or cooking oil till golden brown; remove to kettle. Add one and one-half cups barley or bread flour to fat in frying pan, stirring while it browns. Add to three quarts hot milk, stirring till smooth; cook fifteen minutes in double boiler, add one tablespoon salt and one teaspoon pepper. Turn sauce over chicken, and simmer from thirty to sixty minutes, according to age of chicken. Cook in oven, with two or three asbestos mats or grates under kettle to prevent burning. Garnish with chopped parsley, and serve with boiled rice.

To Try Out Fat

Cut suet, tallow, or trimmings of fresh fat pork in small pieces, or put through meat chopper. Soak mutton or chicken fat for twenty-four hours in cold salted water, changing water several times to remove the objectionable flavor; drain well before heating. Cook slowly in oven or double boiler for several hours. When fat is melted, strain through cheesecloth, pressing to obtain all the fat. Keep in cool place.

The addition of one part cottonseed oil to three parts strained fat makes a good cooking fat.

Save the scraps or crackling to use in suet puddings, gingerbread, or hash.

To Deodorize and Clarify Fats

Any liquor in which meat has been boiled should be allowed to stand until the fat has risen to the top and

solidified. Remove fat to saucepan, scraping off sediment or particles of meat that cling to the bottom, then clarify and deodorize by any of the following methods:

Add about a teaspoon soda to each quart of fat, barely cover with cold water, and cook very slowly until the water has evaporated; add soda and a sliced raw potato, omitting water, and cook slowly until all bubbling ceases; put a piece of charcoal in pan with the fat, and heat until there is no bubbling; add half a cup mild vinegar to a quart or more fat, and cook slowly until it has evaporated. Strain and cool. A mixture of several kinds of fat may be treated, instead of taking them separately.

Savory Fat

4 pounds fat: sausage,	1 tablespoon salt
mutton, ham, veal	4 sliced apples
1 cup chopped onion	1 tablespoon sage

If fat is salty, omit part or all of salt. If preferred, a mixture of sage, thyme, and marjoram may be used. Cook ingredients together slowly until soft; strain, and let harden. Use in cooking meats, vegetables, soups, hash, and gravies whenever a highly seasoned dish is wanted.

Bacon should be kept separate, and used in dishes requiring bacon flavor.

MEAT SAUCES

White Sauce I

Make as White Sauce II, using double the amount of milk, or half the amount of flour and fat. This sauce is suitable for cream soups or for certain scalloped dishes—

scallops that are made with some bread, cereal, or other thickening agent, in combination with meats or vegetables.

White Sauce II

With Barley Flour

1 $\frac{1}{4}$ cups oil or meat drippings	$\frac{1}{2}$ teaspoon pepper
1 tablespoon salt	2 quarts hot milk
	1 $\frac{1}{4}$ cups barley flour

Heat milk in double boiler. Cook flour in fat for two or three minutes, but be careful not to burn mixture. Remove from fire, add hot milk, stirring constantly until smooth and thickened. Do not return to fire, but cook in double boiler, thirty minutes or more, with water boiling underneath. Stir occasionally. Add seasonings. Use for highly seasoned sauces, such as curry; for vegetables with distinctive flavor, like tomatoes; or for such meats as bacon, ham, or sausage.

With Starchy Flours

$\frac{1}{3}$ to 1 cup butter substi- tute of any kind	$\frac{1}{2}$ teaspoon pepper
1 tablespoon salt	1 cup rice flour or
2 quarts hot milk	$\frac{1}{3}$ cup potato flour or
	$\frac{1}{3}$ cup cornstarch

Use equal proportions of flour and fat. Heat milk in double boiler. Stir fat until creamy, add flour, and stir until smooth. Add hot milk, stirring constantly until smooth and partly thickened. Cook forty to forty-five minutes in double boiler, stirring occasionally. Add salt, and pepper if desired. Do not cook fat and flour directly over fire at all, as there is danger of the formation of

curdy lumps, which are difficult, sometimes impossible, to remove. Use for potato, celery, cucumber, or any meat or vegetable of mild flavor, or for cereals.

White Sauce III

Make as White Sauce II, using two and one-half times the amount of flour and butter substitute. This is a very stiff sauce, used chiefly for croquettes.

Brown Almond Sauce

Blanch one-half pound or more almonds, and cut in eighths. Cook until well browned in small amount of oil or other fat. Drain, and add to two quarts White Sauce II. Be careful not to burn fat, and use any that is left in making the sauce. Peanuts may be used in place of almonds, but they should be cooked in fat only long enough to heat them well, unless they have not been roasted.

Plain Brown Sauce

1 $\frac{1}{4}$ cups drippings	2 quarts stock or water
2 small sliced onions	2 teaspoons salt
1 $\frac{1}{4}$ quarts barley flour	$\frac{1}{2}$ teaspoon pepper

Cook onions and drippings together until very dark brown, as dark as can be without burning. Add flour, and cook until browned; add water or stock, stirring until smooth and thickened. Let boil five minutes, and add seasonings. If flour is well browned, a good sauce may be made without stock or kitchen bouquet. If not of good color or flavor, add kitchen bouquet or vegetable extract as needed.

Parsley Sauce

1½ cups melted butter or butter substitute	¾ teaspoon pepper ⅓ cup minced parsley
1 tablespoon salt	¼ cup vinegar

If vinegar is very strong, it may be necessary to use less. If butter substitute is used, melt over hot water, add remaining ingredients in order given, and serve hot on broiled fish or boiled potatoes.

Brown Gravy for Roasts

1½ cups drippings	2½ quarts boiling water
1½ cups barley flour	Salt and pepper to taste

Brown flour slightly in oven, stirring often. Pour off clear fat from roast, and save for other purposes. Turn the brown drippings in bottom of meat pans into large saucepan; add browned flour. Stir until smooth; add water, stirring constantly. Boil five minutes; season to taste. If the gravy is not of a rich brown color, add kitchen bouquet or vegetable extract as needed.

Mushroom Sauce

Chop one pint or more mushrooms, sauté in drippings one or two minutes; drain, and add to Brown Gravy or Plain Brown Sauce. If dried mushrooms are used, soak twenty-four hours or longer before chopping. Use water in which they are soaked to make sauce.

Fish Sauce

1 cup margarine	2 teaspoons salt
1 cup rice flour or ⅓ cup potato flour	1 teaspoon pepper
2 quarts fish stock	6 hard-cooked eggs or 1 cup chopped pickle

Melt fat, add flour, stir until smooth; add boiling stock or water, stirring constantly. Add salt and pepper, boil five minutes; add sliced or chopped eggs, or chopped cucumber pickles.

Celery Sauce

1 cup margarine	1 pint milk or cream
2 teaspoons salt	2 cups cut celery
$\frac{1}{2}$ teaspoon pepper	1 cup rice flour or
1 quart chicken stock	$\frac{1}{3}$ cup potato flour
1 pint celery water	2 tablespoons parsley

Cut celery in quarter-inch pieces, boil twenty minutes in three cups water; drain, and reserve water for sauce. Melt fat, add flour, stir until smooth; add boiling stock and celery water, boil five minutes. Add seasonings and cream, bring to boil again; add parsley, and serve.

Cheese Sauce

Add one quart grated cheese to White Sauce II, adding also one teaspoon mustard and one teaspoon paprika which have been mixed with salt and pepper.

Savory Sauce

1 pound salt pork or bacon	2 qts. strained tomato
$\frac{1}{2}$ cup chopped onion	1 cup barley flour
$\frac{1}{4}$ cup chopped parsley	$\frac{3}{4}$ teaspoon paprika
	Salt to taste

Cut pork or bacon in tiny dice, cook until crisp and slightly colored; add onion, and cook very slowly until softened. Add flour, stir until well blended, then add

tomato; stir until smooth and thickened. It should boil four or five minutes. Serve with or without straining.

Italian Sauce

2 qts. strained tomato or part beef or chicken stock	$\frac{1}{2}$ cup chopped turnip $\frac{1}{4}$ cup chopped parsley $\frac{1}{2}$ cup green pepper
1 cup chopped onion $\frac{1}{2}$ cup chopped carrot	1 cup oil or drippings 1 cup barley flour
2 teaspoons salt	

Cook chopped vegetables in drippings very slowly for fifteen or twenty minutes; skim or strain out, and reserve for soup. Stir flour into fat, add hot, strained tomato, and boil five minutes, stirring constantly. Add salt, and serve.

Maître d'Hotel Butter

1 $\frac{1}{2}$ cups margarine	3 tablespoons finely chopped parsley
1 tablespoon salt	$\frac{1}{4}$ cup vinegar
$\frac{3}{4}$ teaspoon pepper	

Cream margarine; add salt, pepper, parsley, and vinegar very slowly.

Mint Jelly

4 tablespoons gelatine	$\frac{3}{4}$ cup vinegar
1 cup cold water	$\frac{1}{4}$ cup lemon juice
1 $\frac{1}{4}$ quarts boiling water	1 $\frac{1}{2}$ cups sugar
2 bunches mint	Green coloring

The proportions of vinegar and lemon juice may be varied to suit convenience. Soak gelatine in cold water twenty minutes. Wash mint and chop fine; add boiling water in which sugar has been dissolved, let stand in warm

place an hour. Add gelatine, lemon juice, and vinegar, and enough green coloring to make a delicate green. Rinse molds in cold water, add strained jelly, and put in cold place to stiffen. Serve with roast lamb or lamb chops.

Pimento Sauce

Add one or more cans strained pimento to two quarts White Sauce II, omitting an equal quantity of milk.

Peanut Butter Sauce

$\frac{3}{4}$ cup peanut butter	2 quarts stock
$\frac{1}{2}$ cup cornstarch	2 teaspoons salt

Mix cornstarch to a paste with an equal quantity of cold stock. Stir peanut butter until smooth with a little cold stock, then add remainder boiling hot, and combine with cornstarch. Boil five minutes or more; add salt, and pepper if desired.

Prepared Mustard

6 tablespoons mustard	2 well-beaten eggs
2 tablespoons sugar	2 cups strong vinegar
2 teaspoons salt	2 tablespoons oil

Mix dry ingredients; add eggs. Add vinegar gradually, cook over hot water about eight minutes, stirring constantly. Cool, then beat in olive oil. Will keep indefinitely. One teaspoon turmeric may be added if desired.

LUNCHEON DISHES

CEREALS AND MEAT SUBSTITUTES

Baked Samp and Cheese

1½ quarts samp	3 quarts White Sauce II
5 quarts water	1 to 2 pounds cheese
2 tablespoons salt	1 teaspoon paprika

Soak samp in water over night; in morning bring to boiling point, add salt, and cook several hours in fireless cooker or Aladdin oven. The samp should be soft and water absorbed. Turn into baking dishes, add sauce, to which grated cheese has been added, and bake from twenty to thirty minutes in moderate oven. Sprinkle with paprika, and serve. Fine hominy or hulled corn may be used in same way; also boiled noodles, spaghetti, or macaroni.

3 qts. strained tomato	2 tablespoons salt
6 quarts hot boiled rice	1 teaspoon paprika
1 quart sliced onion	½ cup minced parsley
¾ cup drippings	1 pound grated cheese

Rissoto

1½ quarts rice	2 cups chopped onion
5 quarts boiling water	2 cups oil or bacon fat
2 tablespoons salt	1 pound grated cheese, or
2 teaspoons paprika	more if desired

Cook onion and rice slowly in fat until well browned, stirring often to prevent burning. Remove scorched particles of onion, if there are any. Add water and salt, and cook an hour in double boiler without stirring. If liked moist, use six instead of five quarts water. When about half done add cheese, stirring carefully with long-handled fork, to prevent breaking.

Samp, Garden Style

1 quart samp	½ teaspoon pepper
3⅓ quarts water	2 or 3 pints cooked peas
1⅓ tablespoons salt	1 quart diced carrot
3 quarts strained tomato	1 pint sliced onion
¾ cup cornstarch	¼ cup minced parsley

Yellow turnip may be used in place of carrot, using left-over or freshly cooked. Rub remaining fat and cornstarch together, add hot strained tomato; boil three minutes, stirring constantly. Add vegetables and seasonings, and cook over hot water until well heated. Pile samp in center of platters, pour sauce over, and serve very hot.

There are several cereal products, not commonly used for that purpose, which make excellent breakfast cereals: pearl barley and cream of barley; white corn meal, which makes a very acceptable substitute for cream of wheat; a mixture of bran and rye meal, which makes a good coarse cereal; popped corn put through meat grinder.

Cream margarine and flour until smooth; add hot milk, stir until smooth, and cook thirty minutes in double boiler. Add salt and pepper, pour over cucumbers, and sprinkle with parsley.

Stuffed Cucumbers

The number of cucumbers depends upon their size and the desired size of servings. If served as the main course for luncheon or supper, the portions should be larger than if served as a second vegetable. Pare, steam, or parboil five minutes or more; rinse with cold water, drain. Cut in halves lengthwise, remove seeds, pressing out as much moisture as possible. Fill cavities rounding full, cover with soft, buttered crumbs, place in shallow pans with cucumber water in bottom, and bake thirty minutes, or until done. Serve with White, Cheese, or Tomato Sauce.

Mock Oysters

Wash green tomatoes, remove stems, and cut in half-inch slices or thicker. Dip in barley flour to coat thoroughly. Sauté in hot frying pans containing cooking oil or salt pork drippings to the depth of one-fourth inch. They should be well browned on both sides, but not burned. Sprinkle both sides with salt and pepper while cooking. Arrange on hot platters; serve with Brown Sauce. Baked Tomatoes

Wash ripe tomatoes, remove stems, cut in halves crosswise, and place in shallow pans with skin side down. Sprinkle each with salt and pepper, and half a teaspoon sugar. Put a bit of fat on the top of each. Bake in hot oven forty-five minutes, or until done. Place on half-

Cook sausage or bacon, mix with rice, moisten with a cup of margarine or fat, add salt and pepper to taste, and fill peppers rounding full. Place in shallow pans with a little water in bottom; bake thirty to forty minutes, moistening rice with rice water if too dry. Serve with White Sauce made with meat drippings, or with Tomato Sauce. In latter case, moisten rice with strained tomato.

If more peppers are used, increase rice and sausage in same proportion.

Carrots Glacé

Carrots à la Pompadour

4 quarts cooked carrot	4 quarts White Sauce I

Bake about twenty minutes.

Mock Mushrooms

in salted water ten minutes, or until tender but not mushy ; drain well. Cut in half-inch cubes or pieces. Cook onion slowly in fat until softened ; add mushrooms, and cook two minutes longer. Mix ingredients ; add egg plant water to moisten, put in baking dishes or ramekins ; cover with crumbs which have been mixed with fat or oil. Bake until crumbs are brown. Serve with or without Tomato or White Sauce.

Spring Greens

There are many common, so-called weeds that furnish appetizing greens for those who have no early greens in the garden. Every locality can furnish one or more of these edible weeds, in addition to the ever present dandelion.

Pigweed, or lamb's quarters, makes good greens when young and tender, and is found wherever there is cultivated land. It may be used alone or in combination with other greens, and is cooked like spinach. Dandelions should be gathered before the flower bud makes much growth, and may be cooked like other greens or served raw as a salad. The marsh marigold, or cowslip, found in marshy places, is prepared like spinach ; also purslane, or "pusley." Sorrel, a common wayside weed in many localities, may be used alone, or in combination as a salad ; or cooked with dandelion, which makes a pleasing combination. Mustard should be used when young, either alone or in combination with greens of a mild flavor, such as purslane or pigweed. Very young, crisp mustard leaves make a good salad green. Milkweed is one of the most valuable of the edible weeds, and, unlike many of them, may be used throughout the season. Early in the spring, the young stem may be used ; later, only the branches are

edible. The young stalks may be bunched and cooked like asparagus, with either melted butter or a white sauce. The branches are usually cooked like spinach.

Kale

Remove tough leaves, wash thoroughly, and drain. Cook in boiling water, adding one tablespoon salt to four quarts water. It will require from thirty to sixty minutes' boiling, according to age. Drain well, chop fine; add one cup butter and two cups stock to eight quarts chopped kale; simmer fifteen minutes, adding more salt if needed.

Kohl-Rabi

Scalloped Kohl-Rabi

9 quarts sliced kohl-rabi	4 quarts White Sauce II
1½ teaspoons pepper	1 quart soft crumbs

Peel kohl-rabi; cut in half-inch cubes, or in one-third inch slices; do not use tough portions. Boil in salted water thirty minutes, or until soft, allowing one tablespoon salt to four quarts water. Drain, put in baking dishes; add sauce, sprinkle with pepper, and cover with crumbs to which one-half cup melted fat has been added. Bake until crumbs are brown. Grated cheese may be used in place of crumbs, or may be added to white sauce if desired.

Turnips au Gratin

1 peck white turnips	4 quarts White Sauce II
1½ teaspoons pepper	1 quart soft bread crumbs

Peel turnips, cut in halves lengthwise, and then in slices; parboil five minutes with one teaspoon soda; drain. Add boiling water, with one teaspoon salt to each quart; boil until tender. Fried Onions

1½ pecks onions

Salt to taste

2 or more cups oil, mar-
garine, or drippings

Peel and slice onions. Into heavy, iron frying pans put about one cup water, and from one-fourth to one-half cup fat; depends upon size of pans—the water should barely cover bottom. Add onions, sprinkle with salt, cover. Cook slowly, stirring occasionally, until water has evaporated and onions are soft and golden brown, not dark brown.

Onions with Nut Sauce

Peel one peck or more onions. Parboil in plenty of boiling water, with one-half teaspoon soda, for two minutes; drain. Add fresh water to cover, boil five minutes; drain again. Add boiling water to cover generously, and boil an hour, or until quite soft. Have them well done, even though they lose shape. If water turns quite yellow, it is well to change it again. Drain well, and add three quarts Brown Almond Sauce. Or use three quarts White Sauce II, to which coarsely cut, well-roasted peanuts have been added.

Stuffed Tomatoes

Choose about fifty large, firm, ripe tomatoes; wash, cut a slice from stem end, and remove pulp to leave only a wall about one-third inch in thickness. About five quarts stuffing will be required. Use a mixture of left-over chopped meat or minced fish, mixed with crumbs; or well-seasoned canned or fresh sweet corn; or boiled rice which has been highly seasoned with onion, green peppers,

celery, etc. Some of the chopped pulp may be added, if desired. Fill tomatoes rounding full, cover lightly with crumbs which have been mixed with melted fat or oil, and bake from thirty to forty minutes. Serve with white sauce, or with some creamed dish, such as celery or onions.

SALADS AND SALAD DRESSINGS

THERE are three types of salad in common use: the light or "green" salad of lettuce or other salad plants, cucumbers, tomatoes, or radishes; the substantial salad of meats, fish, or nutritious vegetables; and the fruit or cheese salad, suitable for dessert.

In the recipes that follow, the fruit salads, and a few other kinds, are usually given without definite amounts. The size of fruits and the desired size of servings determine the amount. For instance, half an egg or a whole egg may be allowed to each person. If pears or peaches are large, half of one makes a fair-sized serving; but if fruit is small, or servings are to be large, one and one-half or two must be allowed to each. If lettuce is to be served alone, at least nine large heads are needed; if used as foundation or garnish, six large heads are sufficient, unless servings are to be very generous in size.

Wash salad plants thoroughly, and keep in cold place until served. Marinate vegetables and meats for an hour or more in freshly made or left-over French Dressing. Do not add dressing to green salads till just before serving, as they wilt very quickly.

If parsley (or lettuce) is washed and kept in tightly covered receptacle, it will keep fresh and crisp for some time.

There are several oils, besides olive oil, that are suitable and satisfactory for marinating salads, and for dressings; cottonseed, peanut, and corn oil are particularly good.

SANDWICHES

THERE are two types of sandwiches in common use: the substantial sandwich, which makes the main dish for luncheon or supper; and the small, dainty sandwich, served at afternoon teas and receptions.

Breads of all kinds may be used for sandwiches: white and dark yeast breads, and quick breads made with baking powder or soda. The latter do not slice as well, but otherwise make very satisfactory sandwiches. To use with meat or fish, a bread made without molasses or a noticeable amount of sugar should be chosen. Yeast bread should be twenty-four hours old; quick breads from twelve to twenty-four hours old.

Except for formal occasions, crusts should not be removed. For that reason, bake bread to light rather than dark brown, and bake in pans that make slices of desirable shape and size. For teas and receptions, the bread should be sliced as thin as possible; for substantial sandwiches, cut it from one-fourth to one-third inch in thickness.

Cream thoroughly butter or any kind of margarine; spread the bread evenly to its very edge, but for receptions and teas, be careful that there is no butter on the edge to soil gloves. Cover the bread evenly to the very edge with as thick a layer of filling as circumstances permit. It should not soak through or run over the edge, but should be sufficient to flavor the sandwich well, or to furnish the desired amount of food material if it is the main dish. Unless meats are very tender, they should be chopped rather than sliced.

Sweet sandwiches are served as dessert for supper or luncheon, with or without tea or chocolate. They are particularly nice for picnics.

If sandwiches are to be kept any length of time, wrap in oiled paper, or cheesecloth wrung out of cold water, and keep in closely covered tin box or jar.

1½ teaspoons salt	2 tablespoons vanilla

Wash figs, and soak in part of water for several hours, or over night. Cut in small pieces, and bring to boil with remaining water. Add tapioca, salt, sugar, syrup, and cook until tapioca is clear and figs are soft. Add coarsely

cut nuts and vanilla; chill. Serve with whipped cream. If pearl tapioca is used, soak in same water with figs.

Coffee Tapioca

2 cups minute tapioca	3 cups sugar
4 quarts boiling coffee	2 teaspoons vanilla
1½ teaspoons salt	2 or more cups nuts

Dissolve sugar and salt in coffee; add tapioca, and cook in double boiler until clear. Add nuts and vanilla; chill. Serve with cream.

Molded Snow

2¼ cups cornstarch	1½ cups sugar
1 cup cold water	1 teaspoon salt
3½ quarts milk or water	1½ tablespoons vanilla

Mix cornstarch, sugar, and salt; add water, and stir until smooth. Add hot milk or boiling water, stirring constantly; cook in double boiler forty-five minutes. Add vanilla, turn into molds; chill. Serve with Raisin, Chocolate, or Fruit Sauce.

Apricot Blanc Mange

2 pounds apricots	1½ cups cornstarch
3 cups sugar	2 teaspoons salt
3 quarts hot milk	2½ cups cold milk

Wash, and soak apricots over night in water to barely cover. Cook in double boiler until soft. When nearly done, sprinkle two cups sugar over top. Drain off juice.

Mix cornstarch to smooth paste with cold milk, remaining sugar, and salt; add hot milk, stirring constantly.

Cook forty-five minutes in double boiler, stirring often. Add drained apricots, cook five minutes; chill. Any preferred fruit may be used in place of apricots. Serve with plain cream or fruit juice.

Prune Blanc Mange

5 quarts hot milk	1 $\frac{1}{3}$ cups sugar
1 pint cold milk	1 tablespoon salt
2 $\frac{1}{4}$ cups cornstarch	5 teaspoons vanilla

Make as Plain Blanc Mange. When done, turn one-third into saucepan, and add three ounces chocolate, three or four cups stoned and cut cooked prunes, and six tablespoons sugar; cook one minute. Turn one-half white mixture into shallow, oblong pans, or any desired molds, smoothing and leveling top; cover with prune mixture. Spread remaining white mixture on top; chill. Serve with sweetened prune juice, or with thin cream.

Caramel Blanc Mange

4 quarts hot milk	2 cups cornstarch
1 quart caramel syrup	2 teaspoons salt
1 cup cold water	$\frac{1}{2}$ cup sugar

To make the caramel syrup, caramelize one pint granulated sugar; add one quart boiling water and one pint dark brown sugar. Simmer until a rather thick syrup; add to hot milk. Mix sugar, salt, cornstarch, and cold water together; add to hot milk, stirring all the time. Cook forty-five minutes, stirring often; add two tablespoons vanilla; chill. This may be varied by using maple syrup in place of caramel, or by adding three cups coarsely cut nuts.

Cocoanut Indian Pudding

1½ cups corn meal	1 tablespoon salt
¾ cup minute tapioca	3 cups molasses
1 cup shredded cocoanut	¾ cup margarine
½ quart brown sugar	6 quarts hot milk

Mix together dry ingredients; add milk, stirring constantly, then margarine and molasses. Bake slowly until a knife comes out clean and there is much whey. It is well to allow four or five hours for baking. The whey or liquor serves as sauce, but whipped cream may be served also if desired. It should be warm rather than hot when served.

Grape Nuts Pudding

5½ quarts hot milk	1 cup corn syrup
1 package grape nuts	½ tablespoon salt
1 cup coarse, dried crumbs	1 cup sugar
	3 cups raisins
	6 eggs

Add hot milk to grape nuts, let stand until cool; add sugar, salt, raisins, and beaten yolks. Fold in stiffly beaten whites just before baking. Pour into oiled baking dishes to depth of one or two inches; bake in slow oven one hour, or until knife comes out clean. Serve with any desired liquid-pudding sauce.

Fruit Cobbler

Use any Shortcake recipe for crust. Fill baking dishes half full of fruit, or more according to depth. Add sugar, if fresh fruit, and juice or water sufficient to prevent burning, but not enough to soak crust. Roll dough in

sheet half an inch in thickness, cutting hole in center. Place on top of fruit; bake in hot oven thirty minutes or more. Or cut dough in rounds about three-fourths inch in thickness; or make dough a trifle softer, and drop by spoonfuls on fruit. Serve with Fruit Sauce, or with cream. The amount of sugar used in the pudding will depend upon the sauce. If cream is used, more sugar will be required than for fruit sauce. Corn syrup may be used in place of all or part sugar, in which case less water or juice will be needed in baking dishes.

Brown Betty

6 quarts soft, stale, dark bread crumbs	1½ cups margarine 2 tablespoons cinnamon
2 quarts dried apples	2 teaspoons nutmeg
1 qt. or more corn syrup	1 teaspoon salt

Wash apples, soak over night in water to barely cover; cook until soft. Mix margarine with crumbs. Put into baking dishes a layer of crumbs, then a layer of apple; sprinkle with spices; repeat. Add syrup and one or two cups apple juice. Cover with crumbs; bake thirty minutes or more, adding more juice if too dry. Serve with Caramel Hard Sauce.

Apple Ginger Pudding

1 quart pastry flour	4 beaten eggs
3½ cups barley flour	3 cups molasses
4 teaspoons soda	3 cups brown sugar
1 tablespoon ginger	1 teaspoon nutmeg
2 cups sour milk	¾ peck apples

Sift together flour, soda, and ginger; mix molasses, milk, and beaten eggs; combine mixtures, and beat well.

Peel, quarter, and core apples, and steam until soft; turn into shallow agate pans. Mix sugar and nutmeg, and sprinkle over apples. Spread first mixture over apples, and bake forty-five minutes or more. Serve with Brown Sugar Sauce, Caramel Hard Sauce, or sweetened whipped cream.

Blueberry Pudding

1 $\frac{3}{4}$ quarts barley flour or	1 cup sugar
2 quarts pastry flour	2 teaspoons salt
5 tbsps. baking powder	4 well-beaten eggs
2 quarts fresh berries or	1 cup shortening
2 small cans blueberries	3 cups milk

Sift together all dry ingredients. Rub in shortening with tips of fingers. Mix milk and eggs, and add to first mixture. Drain blueberries very thoroughly, and add last. Bake in shallow cake pans. Serve with Fruit Sauce, or with Hard Sauce to which half a cup juice is used in place of hot water.

Indian Cottage Pudding

1 $\frac{1}{2}$ quarts pastry flour	4 $\frac{1}{2}$ cups milk
$\frac{3}{4}$ quart corn flour	5 well-beaten eggs
5 tablespoons oil or fat	2 $\frac{1}{2}$ cups sugar
7 tbsps. baking powder	$\frac{3}{4}$ tablespoon salt

Any kind of corn meal or corn flour may be used. Five and one-fourth quarts barley may be used instead of pastry. Cream together shortening and half of sugar. Add remaining sugar to well-beaten eggs, and combine mixtures. Sift dry ingredients together, and add alternately with milk to first mixture. Pour into oiled pans to depth of half or two-thirds of an inch. Bake in mod-

erate oven. Serve with sweet Chocolate Sauce, Fluffy Fruit Sauce, or any sauce that is quite sweet.

Shortcake I

1½ quarts pastry flour	1¼ cups shortening
1½ quarts white corn flour	4½ or more cups milk
½ cup baking powder	1¾ tablespoons salt

Sift dry ingredients together. Rub or cut in shortening; add milk to make dough as soft as can be handled. Drop doughs often give best results. Bake in hot oven.

Shortcake II

1½ quarts pastry flour	2 tablespoons salt
1½ quarts barley flour	1½ cups shortening
½ cup baking powder	4 or more cups milk

Make and bake as Shortcake I. All or two-thirds barley may be used, but the more barley the darker the cake.

Shortcake III

2 quarts pastry flour	5 teaspoons salt
1 pint potato flour	1¼ cups shortening
6 tbsps. baking powder	4 cups milk (about)

Rice flour or cornstarch may be used in place of potato flour, and barley instead of pastry. Make and bake as Shortcake I. The dough should be as soft as can possibly be handled.

Sweet Shortcake

If sweet cake is desired, add one or one and one-half cups sugar to any of above recipes.

These cakes may all be made with less shortening, but of course will be less tender. The shortening may be any hardened vegetable oil or butter substitute. Water may be used instead of milk.

Strawberry Shortcake

Wash and hull eight or more boxes strawberries, and cut in pieces. Add sugar or white corn syrup to taste, and let stand for an hour or so. It is a good plan to warm mixture slightly.

Use any shortcake recipe. Roll to fit pie tins, or cut in small rounds, or drop by spoonfuls. The last method is particularly good if much corn meal or corn flour is used in dough, for such mixtures need to be very soft. Bake in hot oven, split, and spread with butter substitute; put fruit between layers and on top. Serve with juice of fruit, with or without cream.

Any fresh or canned berries or fruits may be used in place of strawberries.

Apricot Shortcake

4 pounds dried apricots 3½ cups brown sugar

Soak apricots twenty-four hours or more in water to cover; cook until soft, rub through strainer; add sugar, or four cups corn syrup.

Use any shortcake recipe. Roll about three-fourths inch in thickness, cut in rounds, place in oiled pans just touching each other; bake fifteen to twenty minutes in hot oven. Split biscuit; put apricot mixture between and on top. Dried peaches, green apple sauce, or other fruit may be used in place of apricots.

Apricot Dumplings

Canned apricots, or stewed dried ones may be used, but do not put through strainer; add sugar or syrup if needed. Make dough as for shortcake, using any preferred recipe. Roll dough one-third inch in thickness, cut in rounds three or four inches in diameter. Put two or three pieces drained apricot on each round, moisten, and press edges together like turnovers. Place in shallow agate pans, and nearly cover with boiling apricot juice. Bake in hot oven twenty to thirty minutes. Serve with juice as sauce.

Fruit Dumplings

Make as Apricot Dumplings. Use stewed and stoned prunes; fresh or canned peaches; a mixture of canned pineapple and fresh rhubarb; or quick-cooking apples. Use very little sugar in dumplings, but make juice rather sweet.

Mock Plum Pudding

1 quart barley flour	5 eggs
1 quart corn meal	2 $\frac{3}{4}$ cups molasses
1 tablespoon salt	2 $\frac{2}{3}$ cups milk or water
1 tablespoon soda	2 $\frac{1}{2}$ cups suet or
1 tablespoon cinnamon	1 $\frac{3}{8}$ cups drippings
1 teaspoon allspice	1 quart raisins

Mix and sift dry ingredients. Mix molasses, shortening, milk, and well-beaten eggs; combine mixtures. Add raisins which have been washed, dried, and mixed with part of flour. Turn into oiled molds, and steam four hours.

New Bellevue Pudding

1 quart molasses	4 teaspoons soda
1 cup drippings	4 teaspoons cinnamon
2 $\frac{1}{4}$ quarts barley flour	4 teaspoons cloves
1 quart milk or water	1 tablespoon salt

Mix and sift dry ingredients together. Melt shortening; add milk and molasses, combine mixtures; turn into oiled molds, and steam two and one-half to three hours. Serve with Caramel, Brown Sugar, Ginger, Molasses, or other sauce.

Steamed Chocolate Pudding

6 eggs, well beaten	3 tbspsn. baking powder
3 cups brown sugar	1 quart pastry flour
3 tablespoons margarine	1 quart barley flour
3 cups milk	2 teaspoons salt
1 $\frac{1}{2}$ cups corn syrup	$\frac{1}{2}$ pound chocolate

Cream margarine with one cup sugar; add beaten eggs, then remaining sugar and syrup. Beat well, and add melted chocolate. Sift dry ingredients together, and add alternately with milk to first mixture. Put in oiled molds; steam one and one-half to two hours. Serve with Brown Sugar or any desired sauce.

Corn Meal Pie Crust

1 $\frac{1}{2}$ quarts pastry flour	4 teaspoons salt
1 $\frac{1}{4}$ quarts white or yellow corn flour	2 $\frac{3}{4}$ cups hardened vegetable oil

Lard may be substituted by using two and two-thirds cups. Make as plain paste. Moisten just enough to form

dough. The dough is more liable to tear in handling, but otherwise is no more difficult to handle than crust made of all wheat flour. Makes eight two-crust pies.

Barley Pie Crust

1½ quarts pastry flour	4 teaspoons salt
1½ quarts barley flour or all barley flour	3 cups hardened oil or 2¾ cups lard

Barley flour makes darker colored paste, otherwise it is very satisfactory. Make as plain paste.

Three-in-One Paste

1 quart barley flour	3 cups hardened oil
1 quart rice flour	4 teaspoons salt
1 quart potato flour	Cold water to moisten

Pastry flour may be substituted for barley. Make as plain paste, using just as little water as possible in moistening.

Cream Pie

5 quarts scalded milk	3½ cups sugar
1½ quarts heavy cream	1½ tablespoons salt
1½ cups potato flour	1 cup cold milk

Four and one-half cups bread flour may be used instead of potato. Heat milk in double boiler. Mix flour with cold milk; add to scalding hot milk, and cook thirty to forty minutes, stirring constantly until thick and smooth, then occasionally. Add salt, sugar, and cream. When cold, the filling should not be stiff enough to seem solid or gummy, but should be delicate and creamy in consistency. If necessary, add extra milk or cream.

Fit crust to pie tins, building up good edges; prick all over bottom and sides with fork. Bake until done, but not brown. Put in filling, sprinkle with nutmeg; bake ten or fifteen minutes.

One-Crust Apple Pie

4½ cups apple	⅛ teaspoon salt
1 cup corn syrup	¼ teaspoon cinnamon or
¼ cup sugar	nutmeg

Pare, core, and slice apples. Fill deep pie tins; sprinkle with sugar, corn syrup, salt, and spice.

Roll pie crust to fit top of plates; cover apples, and bake until apples are soft. Cool slightly, then turn upside down. Cut, and serve as two-crust pies, but with apple on top. May be served with whipped cream. If apples require long cooking, it is well to cook them partly before putting on crust. This mixture may be used in two-crust pies. Makes filling for one pie.

Cocoanut Pie

Make Cocoanut Custard mixture; pour into deep pie tins lined with paste. Bake slowly on lower grate until knife comes out clean.

Squash or Pumpkin Pie

1 quart milk	2 tablespoons salt
1¼ qts. dark corn syrup	2 tablespoons ginger
3 qts. cooked pumpkin	2 tablespoons cinnamon
12 eggs, well beaten	1 teaspoon nutmeg

Rub steamed or canned pumpkin through sieve. Mix salt and spices together, and add to pumpkin. Nutmeg

may be omitted if preferred. Add remaining ingredients, and mix well. Fit crust to deep pie tins, building up good edges. Turn in pumpkin mixture, and bake slowly an hour, or until knife comes out clean.

Mock Lemon Pie

2 quarts buttermilk	16 eggs, beaten separately
1 $\frac{3}{4}$ cups cornstarch	$\frac{1}{2}$ cup margarine
1 $\frac{1}{2}$ quarts maple or dark corn syrup	$\frac{1}{2}$ teaspoon salt
	1 $\frac{1}{2}$ cups lemon juice

Mix cornstarch with two cups cold water; add to scalding milk, stirring constantly until smooth and thick; cook twenty minutes. Add gradually to yolks, then add remaining ingredients, and cook five minutes.

Line pie plates with any preferred pastry, building up a good edge; prick bottom and sides with fork, and bake until crisp, but not very brown. Turn in filling, cover with meringue, and bake slowly until brown. Meringue: Beat egg whites until stiff; add three-fourths cup sugar gradually, and one teaspoon lemon extract. Pile lightly on pies, leaving uneven surface.

Orange Delight

$\frac{3}{4}$ cup granulated gelatine	5 cups sugar
3 cups cold water	3 cups lemon juice
3 $\frac{1}{2}$ quarts boiling water	12 large navel oranges

Soak gelatine in cold water twenty minutes; dissolve in boiling water. Add sugar and lemon juice; strain through cheesecloth wrung out of hot water. Pour, one inch deep, into large, shallow agate pans which have been dipped in cold water. Put in cold place to stiffen; cut in

inch cubes; pile lightly on plates or glass sauce dishes. Remove pulp carefully from sections of orange; sprinkle with one cup sugar; let stand an hour or more. Place sections of orange on top of jelly; pour over whole a spoonful or two of orange juice. Serve without cream. If not sweet enough, use another cup sugar in jelly.

Rhubarb Pie

12 pounds rhubarb	8 eggs, well beaten
2 quarts corn syrup	1½ cups barley flour

Wash rhubarb, removing any discolored portions of skin. Place on board, and with sharp knife cut in inch pieces. Cover with boiling water, let stand five minutes; drain thoroughly. Mix flour, syrup, and beaten eggs. Fill pie plates with rhubarb, add syrup mixture; cover with crust, pressing edges firmly together. Bake in moderately hot oven until rhubarb is done.

Banana Split

Use one-half the proportions for jelly as given in Orange Delight. Unsweetened red cherry, Loganberry, or other fruit juice may be used instead of water, by omitting two cups lemon juice. Mold in half-inch sheets; cut in cubes. Split small bananas lengthwise, allowing one-half banana to each serving. Pile jelly cubes lightly on bananas. Put whipped cream on top; or pour over some sweetened fruit juice.

Apricot Ice

Cook canned apricots until very soft; put through coarse strainer, or crush until about consistency of apple

sauce. Add no water or sugar. There should be about five and one-half quarts. If apricots are unsweetened, add sugar to make slightly sweet. Freeze as any ice.

Loganberry Ice

5 quarts canned Logan-	$\frac{1}{4}$ cup lemon juice
berry juice	Sugar or syrup to taste

Use the berries for pies, and the juice for Loganberry Ice. The amount of sugar depends upon amount used in canning. If berries are not sweetened at all, about a quart of sugar or corn syrup will be required. Freeze as any ice.

Fruit Sherbets

Use recipe for any kind of fruit ice. When half-frozen, add stiffly beaten whites of four eggs, to which four tablespoons powdered sugar have been added. Finish freezing, and let stand an hour or more to ripen.

Popcorn Dainties

1 pint popcorn	$\frac{1}{4}$ teaspoon cream tartar
1 $\frac{1}{2}$ pounds maple sugar	1 $\frac{1}{2}$ tablespoons butter
1 $\frac{1}{2}$ cups whole milk	1 teaspoon maple flavor
	$\frac{1}{2}$ teaspoon salt

Pop one pint or more corn; remove hard kernels. Boil sugar, milk, and cream tartar to soft ball stage; remove from fire; add butter or butter substitute, salt, and flavoring. Pour over popped corn, toss lightly in small clusters. Serve with or without rich milk or thin cream. If eaten without cream, pack in shallow, oiled pans and cut in squares. Brown sugar and vanilla may be used in place of maple.

Corn Crisp

1 pint popcorn	3 tablespoons margarine
3 cups molasses	$\frac{1}{3}$ cup sugar or
$\frac{3}{4}$ teaspoon salt	$\frac{1}{2}$ cup corn syrup

Pop corn, and remove any hard kernels. Boil molasses, syrup, and margarine to soft ball stage; add salt, and three-fourths teaspoon soda if desired. Mix with popped corn, and serve without shaping. Serve in cereal dishes with rich milk or thin cream. Corn Puffs may be used in place of popcorn.

PUDDING SAUCES

Chocolate Sauce

8 ounces chocolate	4 cups sugar
8 tablespoons margarine	$2\frac{2}{3}$ cups water
4 cups corn syrup	1 tablespoon vanilla

Melt chocolate over hot water; add fat, sugar, syrup, and water. Mix well, bring to boiling point; simmer fifteen minutes. Cool slightly before serving.

Fruit Sauce

2 quarts fruit syrup	4 tablespoons cornstarch
3 tablespoons margarine	$\frac{1}{2}$ teaspoon salt

If unsweetened fruit juice is used, add sugar or syrup to taste. Often a combination of juices is better than one kind alone, even when served with pudding made of one kind of fruit. Mix cornstarch with a little cold fruit juice; add boiling juice, salt, and fat; boil five minutes. Coloring may be added to give a more attractive appearance, but be very careful not to use too much. Shredded or finely cut fruit may be added if desired.

Brown Sugar Sauce

$\frac{3}{4}$ quart brown sugar	6 tablespoons butter
$1\frac{1}{2}$ quarts water	$\frac{1}{4}$ cup cornstarch
$\frac{1}{2}$ teaspoon salt	1 teaspoon cinnamon

Mix sugar, cornstarch, and seasonings together. Add boiling water, boil five minutes; add butter, and remove from fire. Serve warm.

Cranberry Sauce

$1\frac{1}{2}$ cups butter	$\frac{3}{4}$ cup water
6 cups powdered sugar	3 cups cranberry juice

Rub stewed cranberries through purée strainer, and use the mixture of juice and pulp. Cream butter; add sugar gradually, alternating with water. Beat well; add cranberry juice gradually.

Raisin Sauce

3 cups raisins	2 tablespoons cornstarch
$\frac{1}{2}$ cup brown sugar	$1\frac{1}{2}$ teaspoons vanilla
$\frac{1}{4}$ teaspoon salt	$1\frac{1}{4}$ quarts boiling water

Mix cornstarch and sugar; add water gradually, stirring constantly. Add washed and seeded or Sultana raisins, simmer until raisins are tender; add salt and vanilla.

Lemon Sauce

$2\frac{1}{2}$ cups sugar	$1\frac{1}{4}$ quarts boiling water
$\frac{1}{4}$ cup cornstarch	1 teaspoon salt
$\frac{3}{4}$ cup margarine	2 teaspoons lemon extract

Mix cornstarch and sugar; add to margarine, which has been stirred until creamy. Add boiling water, stirring

constantly; boil five minutes, stirring often. Add salt and lemon extract. White corn syrup may be used in place of sugar. Mix cornstarch with cold water to paste; add three-fourths quart boiling water, and syrup; boil, and add remaining ingredients.

Ginger Sauce I

1 quart brown sugar	1 cup vinegar or
1 quart mild molasses	$\frac{1}{2}$ cup lemon juice
$1\frac{1}{2}$ cups water	2 tablespoons ginger
4 tablespoons margarine	$\frac{1}{4}$ teaspoon salt

Mix sugar, salt, and ginger; add molasses, fat, vinegar, and water; simmer ten minutes. Serve hot.

Ginger Sauce II

2 cups butter	1 tablespoon lemon juice
6 cups light brown sugar	2 tablespoons ginger

Chop preserved ginger very fine, and mix with ginger syrup before measuring. Stir butter till creamy; add sugar gradually, beating hard. When smooth and creamy, add ginger, and slowly the lemon juice.

Fluffy Fruit Sauce

$1\frac{1}{4}$ cups margarine	4 egg whites
$1\frac{1}{2}$ quarts powdered or light brown sugar	$1\frac{1}{2}$ quarts fruit pulp and juice mixed

Beat margarine to a cream; add sugar gradually, then stiffly beaten whites; and last, work in fruit pulp slowly, so as not to curdle mixture. Fresh, canned, or dried peaches and apricots, fresh or canned berries, or a mixture of orange juice and banana pulp, may be used.

Russet Sauce

2½ cups margarine	5 teaspoons vanilla
5 cups brown sugar	1¼ cups cream or milk

If margarine is very hard, rinse out bowl with hot water. Stir margarine until creamy; add sugar gradually, beating hard until creamy. Add milk and flavoring slowly, to prevent curdling. Do not chill, as sauce should be of creamy consistency.

Molasses Sauce

¾ quart mild molasses	2 tablespoons cornstarch
¾ quart boiling water	2 teaspoons mixed spice
¾ quart brown sugar	½ teaspoon salt
¾ cup margarine	6 tablespoons lemon juice

Mix sugar, spices, and cornstarch together; add molasses, margarine, and water; boil five minutes. Add more lemon juice or a little vinegar if needed.

Maple Sauce

Make as Brown Sugar Sauce, but omit cinnamon and add maple flavor.

Maple Sugar Sauce

3 cups maple sugar	6 egg whites
6 tablespoons corn syrup	2 cups cream
½ cup boiling water	¼ teaspoon salt

Boil sugar, corn syrup, and water almost to soft ball stage. Pour over stiffly beaten whites, stirring constantly. Cool, and fold in whipped cream. Thin cream may be used if necessary.
